Solid tyres

Lithium battery 24V 10Ah

The all new Mobi Free

The original Mobi will go down in history as one of our best-selling folding mobility scooters of all time. Rugged, compact and easy to use, this super all-rounder quickly became a customer favourite. A hard act to follow.

However, with new, stronger, lighter materials, our team has made improvements we never thought possible. The all new Mobi Free is even more amazing than the original. Upgrade to a super versatile, super reliable model today.

- » Max speed 4Mph
- » Max drive distance 9 miles
- » Max capacity 125Kg
- » Max gradient 12 degrees
- » Turning radius 1.4M
- » Driving system: rear wheel drive
- » Solid tyres
- » Brush motor
- » Lithium battery 24V 10Ah
- » Charger: 25.9V 2A (Output:25.9V 2A)
- » Weight 19Kg
- » Aircraft approved
- » Motability approved

- » User weight 133Kg/21 stone
- » Range up to 9 miles*
- »  Motability approved

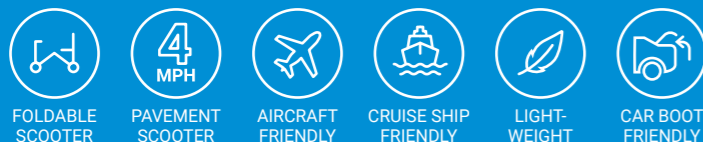

* Range dependants on user weight and terrain.

AIR^o

The lightest genuine 4-wheel boot scooter in the world!

A lot of thought has gone into this amazing, feather-light scooter. Though "lightness" was a design priority, we refused to compromise on build quality. That's why the Monarch Air is made from super-strong magnesium alloy.

- » Weighs only 14.7Kg (excluding battery)
- » Premium build quality
- » Lightweight
- » 8" PU wheels, solid front and back
- » Maximum weight capacity 125Kg/19 stone
- » 120W brushless motor
- » Maximum speed 4Mph
- » Additional 20Ah battery available for purchase
- » Aircraft approved
- »  Motability approved

Optional extras: arms, storage bags travel holdall

8" PU wheels, solid front and back

120W brushless motor

WEIGHS ONLY 14.7KG!

Excluding battery

UPGRADE TO 20AH BATTERY TO DOUBLE THE RANGE!

Magnesium alloy frame

* Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

The dynamic MM4 mobility scooter

The solidly built MM4 mobility scooter features a distinctive slimline frame. Another neat feature of the MM4 is its ability to make light work of uneven pavements thanks to its pneumatic tyres.

- » Maximum carrying weight 158.7Kg/25 stone
- » Maximum speed 4Mph
- » Range up to 23 miles*
- » Pneumatic tyres
- » Available in blue or red
- »  Motability approved
- » LED lights front and rear
- » Full suspension
- » Captain seat

The marvellous MM8

Capable, reliable and road ready. Equipped with full suspension, the MM8 copes easily with varying terrain. This provides a smooth ride on a range of surfaces, thanks to the use of dependable coil springs.

- » Maximum carry weight 158.7Kg/25 stone
- » Maximum speed 8Mph
- » Range 25 miles*
- » Available in red and blue
- » Road legal
- » Steel frame
- » LED lights front and rear
- » Full suspension
- » Captain seat
- »  Motability approved

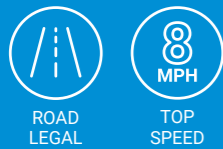

* Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

SPRINT EIGHT

Sprint 8 mobility scooter

The road legal Sprint 8 mobility scooter is designed with performance at its core. With a top speed of 8Mph and a battery range of up to 25 miles, the Sprint 8 mobility scooter sets high standards. Class 3 licensed, the Sprint 8 can be registered for use on public roads. This means you can leave the car on the drive when you nip into town.

- » Maximum carry weight 158.7Kg/25 stone
- » Maximum speed 8Mph
- » Range 25 miles*
- » Road legal
- » LED lights front and rear
- » Available in red or blue
- » Captain seat
- » Full suspension
- »  Motability approved

* Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

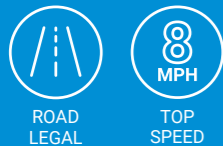

VOGUE

SPORT

Our flagship class 3 model

Equipped with full suspension and a carry capacity of 25 stone, the Vogue Sport boasts a jaw-dropping 30 mile range.

- » Maximum carrying weight 158.7Kg/25 stone
- » Maximum speed 8Mph
- » Range up to 30 miles*
- » Pneumatic or solid tyres
- » Road legal
- » Available in red and blue
- » Full suspension
- » High back captain seat
- » LED lights front and rear
- » USB port
- »  Motability approved

VOGUE

XL

Capable, reliable, and road ready

With its solid build and durable parts, this premium scooter copes easily with varying terrain whilst its 10 inch wheels and optional pneumatic tyres make for a smooth ride.

- » Maximum carrying weight 203.2Kg/32 stone
- » Maximum speed 8Mph
- » Range up to 30 miles*
- » Pneumatic or solid tyres
- » Road legal
- » Available in red and blue
- » Full suspension
- » High back captain seat
- » LED lights front and rear
- » USB port
- »  Motability approved

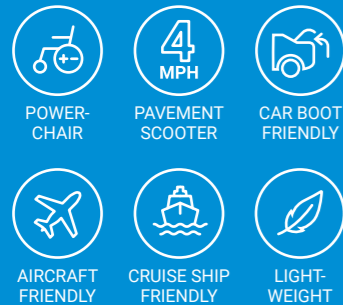

* Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

* Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

The all-new Ezi-Fold Home

With a top speed of 4Mph and a range of up to 8 miles, the all-new Ezi-Fold Home is set to become one of the UK's most popular powerchairs. We believe this is the worlds lightest powerchair thanks to its aluminium and magnesium alloy frame.

- » Battery: 24V6Ah lithium battery
- » Mileage: 6-9Mph**
- » Motor: 24V/150W*2 brushless motor
- » Climbing Ability: ≤6°
- » Speed: 0 - 4Mph, 5 gears can be adjusted
- » Frame material: aluminium alloy
- » Wheel: front 6", rear 12"
- » Max load: 100Kg
- » Net weight: 14.8Kg*
- » Chargeable on and off board
- »  Motability approved

WEIGHS ONLY 14.8KG!
Excluding battery

EZI-FOLD

EZI-FOLD PRO

The incredibly strong Ezi-Fold

Capable of carrying more than 5 times its own weight, the Ezi-Fold powerchair comes in at just 26Kg thanks to its lightweight alloy construction. Two independent motors enable the Ezi-Fold to turn on the spot. With a top speed of 4Mph and a range of up to 12 miles.

- » Ultra-lightweight magnesium/aluminium alloy frame
- » Max speed 4Mph
- » Range 23.7 miles**
- » User weight 133Kg/21 stone
- » Electronic regeneration disk brakes
- » Brushless motors
- » Weight with battery 23.5Kg*
- » Chargeable on and off-board
- » Seat height 20.3"
- » Seat width and depth 18" x 17"
- » Foldable and portable
- » Suspension
- » Remote attendant control
- »  Motability approved

Light, strong and agile

The incredibly strong Ezi-Fold Pro powerchair comes in at just 26Kg (excluding battery) thanks to its magnesium alloy construction. The two independent motors enable the Pro to turn on the spot and deliver a top speed of 4Mph with a range of up to 15 miles.

- » Ultra-lightweight aluminium alloy frame
- » Powered by two 250W brushless motors
- » Max Speed 4Mph
- » Electric regeneration disk brakes
- » Each unit weighs 26Kg*
- » 12 mile battery range**
- » 21 stone user weight
- » Portable folding functionality
- » Seat height 20.3"
- » Seat width and depth 18" x 17"
- » Suspension
- » Remote attendant control
- »  Motability approved

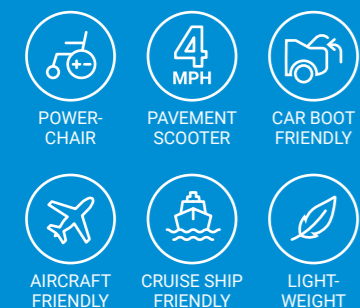

*Excluding the battery. **Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

*Excluding the battery. **Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

Ezi-Fold Auto powerchair

A great deal of thought has gone into new Ezi-Fold Auto, this folds automatically at the push of a button, making it ideal for car journeys. The two independent motors deliver a top speed of 4Mph and enable the "Auto" to turn on the spot.

- » Auto fold
- » Ultra-lightweight aluminium alloy frame
- » Powered by two 250W brushless motors
- » Max Speed 4Mph
- » Electric regeneration disk brakes
- » Gross weight 30.13Kg*
- » Battery weight 3.13Kg
- » Net weight 27Kg
- » 12 mile battery range**
- » 21 stone user weight
- » Portable folding functionality
- » Seat height 20.3"
- » Seat width and depth 18" x 17"
- » Remote attendant control
- » Suspension
- »  Motability approved

Ultra-lightweight magnesium/aluminium alloy frame

*Excluding the battery. **Range is dependent upon user weight, terrain, incline, temperature and battery conditions.

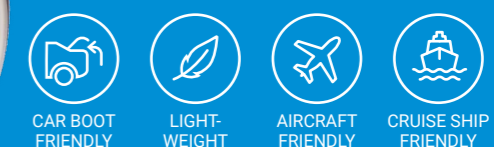

- » Lightweight aluminium rollator
- » Nylon seat and backrest
- » With height adjustable backrest and handle
- » 8" PVC/PP/rubber castors
- » With big shopping bag

CALIBRE

- » Premium build quality
- » Lightweight liquid coated frame
- » PU armrest
- » Detachable footrest & foldable backrest
- » 8" front castors & 24" rear wheels
- » Quick release rear wheels

INDIE

Nomad

- » Lightweight aluminium liquid coated frame
- » Nylon seat and backrest
- » 8" castors, with shopping bag
- » Easily foldable

INDIE

Explorer

- » Lightweight aluminium rollator
- » Nylon seat and backrest
- » With height adjustable backrest and handle
- » 10" front castors & 8" rear castors (can be changed to 10" front & rear)
- » With big shopping bag
