Adjustable Beds

Back-rest adjustment

Sit up properly and comfortably, providing postural support that's better for your back.

Leg-rest adjustment

Raise your legs easily for increased comfort, reduce swelling and improve circulation.

Zero gravity

Experience weightlessness for pressure-free sleep, ideal for relieving tension in the body.

Anti-snore

Ideal for couples, gently raises the head upward to open the airways and reduce snoring.

Wireless control

Control your bed at the touch of a button and save your favourite sleeping and sitting positions on the handset with the memory button.

Quality durable base

The fully upholstered base that the mattress rests on adds extra plushness and cushioning.

Want more features?

Enhance your Opera adjustable bed by choosing to upgrade.

[See page 32 for more details.](#)

Experience Weightlessness with Zero Gravity

Out of this world comfort

The concept of zero gravity was developed by NASA to minimise astronauts' body stress during space travel, by evenly distributing weight and reducing pressure on the spine and joints.

MOTION

Motion

Upgrade Base to add Extra Comfort Technology

Neck pillow tilt

Additional motor for the neck section for extra adjustment and a fully upright position.

Massage

The perfect way to relax and unwind after a long day. Choose pulse, intensity and duration.

Underbed light

Soft, warm lighting that illuminates the floor around the bed. Perfect for navigating through your bedroom in the dark.

Glide-back technology

The bed back-rest travels back when raised to alleviate stomach compression and give extra room in the bed.

Lumbar adjustment

Extra adjustment that raises from the back-rest to alleviate pressure on the spine, pelvis and hips.

USB charging port

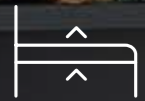

USB-A and USB-C ports each side of the bed, perfect for mobile phones and tablets.

Raises up to 30cm for easier transfers

High-Low Profiling Beds

Height adjustment

Whole bed goes up and down to ease getting in and out and facilitate on-bed care.

Side rails

Provides additional safety for the user and helps prevent bed falls.

Easy-brake castors

Allow for easy and safe manoeuvring, handy for cleaning around the bed and lock into place.

Leg-rest adjustment

Raise your legs up easily for total comfort and relaxation, beneficial for those with swelling or poor circulation.

Wired handset

Easy-to-use wired handset clips onto the side of the bed when not in use.

Back-rest adjustment

Sit up properly and comfortably, providing postural support that's better for your back.

Before You Get Started

Whether you're new to profiling beds or have an idea of what you're looking for, we want to make your Opera journey simple.

Is on-bed nursing care required?

Height adjustment is beneficial for care givers who facilitate on-the bed nursing. Raising the bed up to waist level takes strain off the body, making it easier and safer.

Struggling to get off a normal divan bed?

Unlike a normal bed, profiling beds have height adjustments where the whole bed can be raised up or lowered down. Lowering the bed down provides easier access.

Have you thought about future care?

Medical conditions are often progressive and acquire more advanced care later down the line. Therefore, we advise choosing a bed that caters to existing and future care needs.

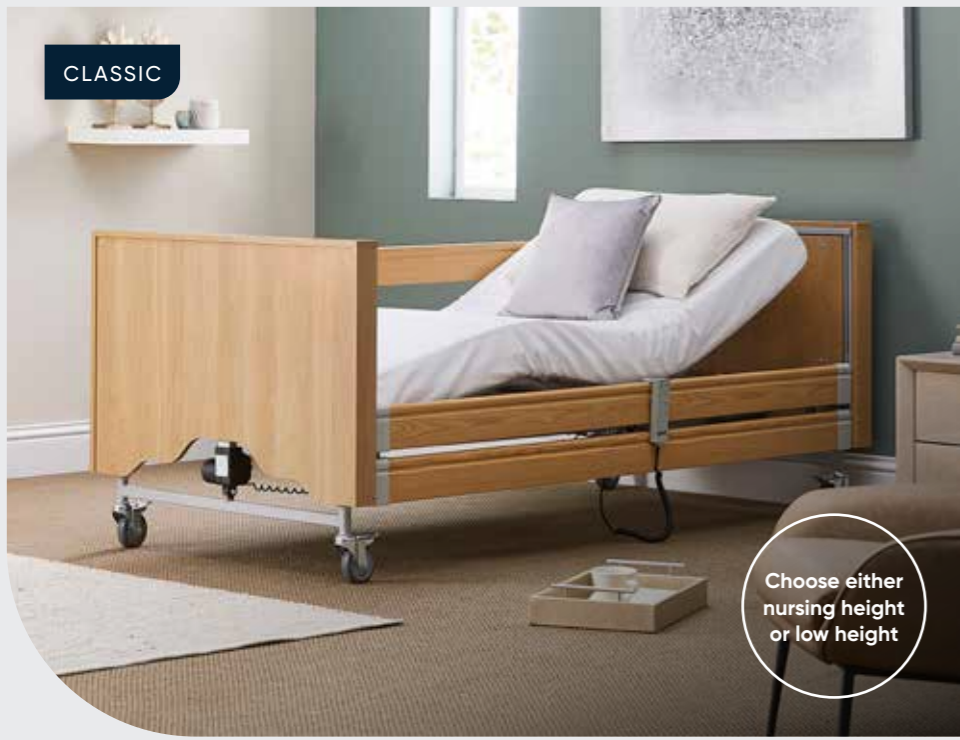

Is there a risk of bed falls?

Beds with an ultra-low floor height are designed to protect vulnerable users from bed falls, giving them a safe sleeping height.

Prefer to be guided through?

Speak with your local retailer

CLASSIC

Choose either nursing height or low height

Classic

Profiling Bed

Practical and minimal styling, the Classic helps facilitate on-the-bed care by raising up to nursing waist level.

 Nursing Height raises from 40cm to 80cm for easier nursing at waist level

 Low height ranges from 22cm to 62cm for easier access and reduce bed fall injury

 Optional side rails for extra safety

The Ideal Choice of Care Bed, Without Compromising on Style

The Signature Comfort profiling bed offers nursing functionality from a hospital bed but is subtly styled to suit any home interior.

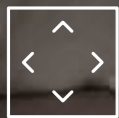

Most popular care bed

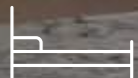

Make it yours with 3 headboard styles in 6 premium fabrics for that extra-special finish

Futureproof your care and comfort by adding full-length or tri-rails for extra safety and stability

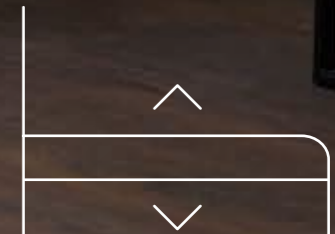

Sizes to suit you, ranging from single to super-king dual designed for two people

Low footboard design for a sleek, unobtrusive look

Peace of mind

If your care needs change, the all-in-one height range makes it suitable if on-bed care is required in the future.

SOLO

Floor level provides safe sleeping height

SOLO

The ultimate home care bed

Solo

Profiling Floor Bed

The Solo is feature rich, with an incredibly low floor height, making it ideal for vulnerable users at risk of bed falls.

Raises up to 73.5cm for nursing care and lowers to floor level (11cm)

Whole bed tilts to create in-bed seated position

Auto-regression back-rest to prevent stomach compression

Impulse

Hybrid Mattress

The Impulse hybrid mattress is a foam preventative pressure care mattress that can then be upgraded to an air mattress. This gives the benefits of very-high risk air mattress pressure relief with the comfort of a normal foam mattress.

 Best of both - provides the comfort of foam and advanced pressure relief from air therapy

 Futureproof - foam only with an optional pump which can be upgraded later

 Superior comfort from air cells with a foam overlay. Pump offers 5 different comfort settings to adjust firmness

 Foam inside continues to deliver pressure relief in the event of a power cut

 2 year warranty

Gel-infused heel zone to protect from pressure build-up

Combines foam and air for enhanced pressure relief and comfort
